## Directions

Review the names of animals and their body parts. Distribute the cards (*see Preparation*) and the materials. Invite students to describe their animal without saying its name: *It has (claws)*. Then drill the question *Does your animal have (claws)?*

Invite students to ask the question using the main characteristic of their animal in order to find their match.

As students find their partner, ask them to sit together and color their cards.

Finally, invite students to describe their animal in full detail: *This is a (cat). It has (whiskers), (paws) and a (tail). It's (orange).*
