

Communicative Grammar Game 8

Objective To ask and answer about jobs in order to complete a table and drawings.

Grammar *Where does she work? At a restaurant.*

What does he do? He's a nurse.

Interaction pairs

Preparation Make copies of Game 8 (1 per student). Cut off the table at the top for half the number of sheets (Student A), and cut off the table at the bottom (Student B) for the remaining sheets.

Directions

Form pairs. Hand out the game sheets, making sure that in each pair one student has a sheet with the *Student A* table at the top and the other student has the sheet with the *Student B* table at the bottom.

Tell students to take turns asking questions about the information that is missing on their sheet.

Model a dialogue with a student, and then have students do the activity in pairs:

S1: *Who's number 1?*

S2: *Mr. Green.*

S1: *Where does he work?*

S2: *At a hospital. What does he do?*

S1: *He's a nurse.*

Finally, ask students to complete the silhouettes according to the information in the table. Monitor and provide help as needed.
