

Communicative Grammar Game 8

Objective To find out the differences in two pictures by describing the actions that are going to happen.

Grammar *A girl is going to fall off her bike.*

Interaction pairs

Preparation Make copies of Game 8 (1 per pair).
Cut the sheets along the line.

Directions

Form pairs. Hand out the pictures. Tell students not to show each other the pictures. Make sure each pair has an A card and a B card.

Demonstrate the game with a student. Say a sentence about something that is going to happen in your picture and invite the student to describe the similar action that is going to happen in his/her picture:

T: *In my picture, a girl is going to fall off her bike.*

S1: *In my picture, a girl on her bike is going to trip with a skateboard.*

Invite pairs to start the game. Monitor and provide help where needed. When students have finished, ask the class how many differences they were able to find.
