

Communicative Grammar Game 8

Objective To share information to complete sentences.

Grammar *If you (go to bed late), you will (feel sleepy the next day).*

Interaction teams

Materials scissors (1 pair per student)

Preparation Make copies of Game 8 (1 per 4 students). Cut out the cards and make piles of 4. (Student A, B, C and C)

Directions

Divide the class into groups of four. Distribute copies of Game 8 (see *Preparation*) and scissors (see *Materials*). In each group, designate student A, B, C and D and have students cut out their sentence parts. Then invite them to look at their sentence half. Tell them that they need to make a total of 16 sentences.

Invite student A to start by reading aloud one of his/her sentence beginnings. Invite the other members of the team to read their sentence endings to find the correct one. When a student thinks that he/she has it, that person may read it aloud and allow the rest of the team members to agree or disagree:

S1: *If you (learn Portuguese)...*

S2: *You will (be able to chat with kids from Brazil).*

Ss: *Yes, that's right!*

Continue by having team members take turns reading their sentence beginning aloud, while the others read their ending. Students continue until all sentence halves have been placed together.

Finally, invite volunteers to read the sentences aloud.
