dancer	scientist	fashion designer	veterinarian	musician	dentist
hairstylist	accountant	teacher	architect	doctor	engineer

Women	Men

## 3 Read the information and discuss the questions.

For more than 100 years, women have fought men to gain equal rights. This hasn't been an easy task in the work area; there is still a big difference between salaries. Stereotypical professions, usually associated with men, are becoming a thing of the past. Jobs such as builders and firefighters are now more open to both sexes. There are still some jobs, however, where people prefer to see a man rather than a woman.

1. Do women have to fight for equal rights? Why? Why not?
2. Do you think men earn more money than women?
3. Why do you think some people prefer men in certain jobs?
